## WORK EXPERIENCE

### Data.tac Nigeria Limited

*IT Product Analyst*

**Wuse II, Abuja**

*September 2019 – February 2021*

- Created higher converting copy for listed products and services on company website, by editing the underlying HTML and CSS elements. Employed user research and interviews to determine user preferences and optimize user experience on both the website and the application.
- Established a 20% increase in the app use-rate (SMAT) on the iOS and Android platforms combined within first three months of employment.
- Led inter-corporate team to establish and oversee online streaming partnerships for the 2019/20 Nigerian National League (NNL), Nationwide League One (NLO), and Nigeria Women's Premier League (NWPL) seasons.
- Coordinated externally with vendors to ensure that the end-client deliverables were prompt and up-to-standard.

### Africa PPP Advisory Services Limited

*Research & Policy Analyst*

**Wuse II, Abuja**

*May 2019 – September 2019*

- Liaised with Advisory Lead to develop and implement state- and nationwide projects, delivering on stakeholder assignments as well as the broader objectives of the Advisory team.
- Provided research and technical support for developing outgoing project proposals.
- Monitored economic trends and policy developments across the Sub-Saharan Africa region, particularly in light of the emergent African Continental Free Trade Agreement (AfCFTA).

### Sparkist Technology LLC

*Research Analyst & Cofounder*

**Denver CO, USA**

*June 2016 – May 2019*

- Collected data on competitors, consumer, and marketplace. Consolidated data into presentations and reports for both internal and external use.
- Interpreted data and made recommendations from findings.
- Utilised version-control (Git) and statistical software (R, Stata) to develop web-based applications and technologies.

## LEADERSHIP EXPERIENCE

### Defence Intelligence Agency

*DOII (Pensions Unit)*

**Asokoro, Abuja**

*February 2021 – Date*

- Utilisation of database administrator (DBA) knowledge in role as co-Administrator of the in-house pensions computation system. Frontline troubleshooting role to ensure optimal systems operation, whilst tutoring other staff on system dos and don'ts.
- Engaging with senior pensions' officials to ensure accurate monthly pensions computation.
- Personal development including maintaining an up-to-date knowledge of relevant policies and legislation and experience in applying best practices.
- Provided desktop support to 15+ internal users, such as by adding computers to the domain, configuring login details, and handling myriad network issues.

## EDUCATION

### Stony Brook University

*BS in Economics, Minor in Applied Math and Statistics*

**Stony Brook, NY, USA**

*December 2016*

- National Society of Black Engineers (NSBE), Stony Brook Economics Club, Stony Brook Actuary Club.
